Hi Michelle:

It was a pleasure meeting you last week during the coalition meeting. It's nice to be able to put a face with a voice from our many conference calls!

As you know, the Education & Employment and Health & Wellness Workgroups are working together to coordinate the Health and Employment Fair scheduled for July 25. Marilyn Maycock, who is working with the Education & Employment Workgroup indicated that she spoke with you about possible resources for the health component of the fair. She mentioned that you were attending a meeting this past weekend with individuals in the health industry who might be able to provide immunizations or other resources at the fair. I told her that you had been active on the Health & Wellness Workgroup, and that I would follow-up with you regarding resources for the event.

Would you be available tomorrow or Thursday for a conference call to further discuss the fair and how UAB may be able to support the event? The planning committee is scheduled to meet on Friday, and it would be helpful to report on any available resources. I look forward to hearing from you soon!

Regards,  
Donnette
